

Icons8 offers

free

icon packs to universities

What Students Get

- 18,000 professional-quality icons
- Geek stuff: SVG sets, Xcode support, Material Design, and teleportation

How It Works

1. We create an account for the course curator
2. The curator adds their students to the account
3. Students use the icons

Why We Do It

We license our technology to Apple, Microsoft, Uber, and thousands of others. We'd like to make it available to students as well.
